

MISSIONARY'S WIFE PRAISES CUTICURA

Daughter's Head Encrusted with Dandruff—Feared she Would Lose her Hair—Many Treatments were Futile—Baby had Milk-Crust.

BOTH CHILDREN CURED BY FAMOUS REMEDIES

"For several years my husband was a missionary in the Southwest, and we were living on the edge of the desert at an elevation of nearly five thousand feet. Every one in that high and dry atmosphere has more or less trouble with dandruff and my daughter's scalp became so encrusted with it that I was alarmed for fear she would lose all her hair, which was very heavy. After spending between five and six dollars for various remedies, in desperation I bought a cake of Cuticura Soap and a box of Cuticura Ointment. After rubbing the Cuticura Ointment thoroughly into the roots of the hair, I gently combed the crust of dandruff free from the scalp, and then gave her head a thorough shampoo with the Cuticura Soap. This left the scalp beautifully clean and free from dandruff, and after the hair was dry, I again rubbed the Cuticura Ointment, this time sparingly, into the roots, and I am happy to say that the Cuticura Remedies were a complete success. My troubles with dandruff were over, although for a long time afterward I used the Cuticura Ointment as at first, after shampooing, which kept the scalp and roots of the hair moist. I have used successfully the Cuticura Remedies for so-called 'milk-crust' on baby's head, and have never found anything to equal them. You are at liberty to publish this letter, for I do sincerely believe that the Cuticura Remedies are a blessing to mankind. Mrs. J. A. Darling, 310 Fifth St., Carthage, Ohio, Jan. 20, 1908."

Cuticura Ointment is one of the most successful curatives for torturing, disfiguring humors of the skin and scalp, including loss of hair, ever compounded, in proof of which a single anointing with it, preceded by a hot bath with Cuticura Soap, and followed, when necessary, by a mild dose of Cuticura Resolvent (liquid or pills) is often sufficient to afford immediate relief of itching, burning and scaly humors, eczema, irritations and inflammations, permit rest and sleep, and point to a speedy cure when all else fails.

BEST HOGS SHOW DECLINE OF 15c

TOPPY SWINE ONLY
BRINGING \$7.85.

Market Not Going to Pieces But Confirming With Eastern Prices—Cattle Market at Low Tide—No Arrivals of Sheep and But Little Demand.

Union Stockyards, Stockdale, Nov. 2.—While there was only a limited run of hogs in the yards today, the market shows a decline of 15c for the past 24 hours' operations.
Best hogs have sold during that period at \$7.85, this being the extreme top. Some 232 pound stuff went at this figure and this lot was especially considered in the "tuppy" class.
The fact that these hogs have sold 15c lower than former values scarcely means that the market is going to pieces. Good heavy, packing hogs that are full of lard, are still being sought by the local trade but killers say that former values were out of line with conditions elsewhere.
Even at the lower range Portland hog prices are fully 16c above those ruling in Chicago and Chicago has always been taken as a standard for the rest of the world.

During the 24 hours the run of hogs at Stockdale was 79 head compared with 251 Monday, 160 Saturday, 80 Friday, 663 Thursday, 1029 Wednesday and a nominal number a week ago. For this day a year ago there was no run of hogs here and a like condition prevailed on the same day in 1907. In 1906 the run was 160 head and in 1905 335 head.

Cattle Market Generally Lower.
While real "tuppy" steers have lost but little in price during recent days because this class of stuff seldom suffers greatly no matter what the condition of the general market, the usual run of steers that are ordinarily considered top or within a fraction of it, sold within the past 24 hours at \$4.41.99; or from 15c to 25c under the former level. Because of the huge run of cattle which has been forced upon the market with the entry of the winter season and the scarcity of feed, killers of all descriptions have about all the thin, half finished stuff they can take care of. This accounts in a measure for their holding back their purchases at this time.

Thin cattle are not wanted here at any price but the trade scarcely knows how to stop the movement because holders in the country are no longer able to hold because of their inability to get fees at profitable prices.

Market for calves remains quite steady although the few head now coming forward are generally of heavy size.

No Sheep and Little Demand.
It was another day in the Stockdale yards without the arrival of any sheep. In fact since last Thursday the run here has been but two dozen head and these came forward on Saturday.

Fact of the matter is that packers' wants of sheep and lambs are very limited at the moment. Most of them have been very liberal purchasers recently at interior points and deliveries on these contracts are still being made.

The following is the general range of livestock values in the yards:
Cattle—Best steers, weighing 1200 pounds, \$4.42.50; medium steers, \$3.75.00; best cows, \$3.32.50; medium cows, \$2.75.00; best heifers, \$3; bulls, \$2.22.50; stags, \$2.50.00.

Hogs—Best east of mountains, \$7.85; Willamette valley best, \$7.50.00; stockers, \$4.00.00; pigs, \$6.00.00.

Sheep—Best wethers, \$4.25.00; ordinary, \$4; spring lambs, \$5.00.00; straight ewes, \$3.50.00; mixed lots, 4.

Calves—Best, \$5.52.50; ordinary, \$3.50.00.45.

Chicago, Nov. 2.—Wheat opened lower and closed 5-8c to 3-4c a bushel lower than yesterday.

There was a weaker feeling abroad and Liverpool closed 5-8d to 3-4d lower after opening 1-8d to 1-4d below yesterday's final prices.
It is very evident that cash wheat premiums are gradually disappearing and cash prices were lower in southwestern market again today. Here, cash wheat was easier, though quoted at unchanged prices. Cargoes at Duluth were bought at 2 1-4c over Chicago December delivered, compared with 3 1-2c a week ago. At Minneapolis only, cash wheat held its premium over the futures. The closing of the difference between the cash and the futures is a gradual one and not an abrupt drop as many expected would be the case. The ef-

fect is expected to be the same in the end; it will have a weakening effect on the speculative market.

After the opening the market drifted lazily and added 1-8c in the December and 1-4c in the May. July opened at the high point and like other options began to weaken early in the day. Trading, however, was dull on the whole.
